

# FORMAKOTE™ SHERPA

**SPECIFICATION SHEET NOVEMBER 2024** 

#### COATED ONE SIDE, WET-STRENGTH KRAFT-BACKED CARRIER BOARD

Formakote<sup>™</sup> Sherpa is a three-ply carrier board that provides structural strength in damp chiller environments and delivers great printability at a cost-effective price point. A sturdy wetstrength board, suitable for a wide range of applications across the beverage, dairy, ready to eat meals, and seafood markets.

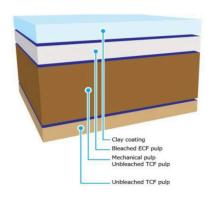

#### **Application Ideas:**

- FMCG freezer, chiller cartons and sleeves
- Beverage glass bottle multipacks (up to 15 x 330 ml), twin stack can packs
- · Seafood wet fish, shellfish, scampi, prawns

Our products are tested for food safety against conditions of use that should not be assumed to include the above-listed applications. To ensure we are providing the correct product with the correct product safety, we must know the intended final use.

Please contact us with this information before using our product for any application.

#### Structure:

- $\,$  3-ply board structure for yield and stiffness
- Double coated top side
- · Uncoated kraft reverse side

#### **Printability:**

- Suitable for sheet fed, offset, digital and flexo printing
- Complex graphics

# Tear Resistance:

- Designed to resist tearing, even on stress concentrators such as handles or holes
- Designed for heavy multi-packs, especially products such as canned products or bottled beverages
- Tear resistance in wet and humid conditions

## Ordering:

- Minimum order size may apply
- Deckle surcharge may apply
- Call your customer service representative for assistance

## **Product Safety:**

- GMP as per EC 2023/2006
- Uses only virgin pulp fibres
- Free of optical brightening agents

Specific compliance details are available in our product safety statements and must be carefully read

EXCELLENCE IN BOARD, EVERY DAY

# Whakatane Mill Ltd certified systems:

- Food Safety System Certification (FSSC) 22000
- ISO 9001 Quality Management System
- ISO 14001 Environmental Management System
- FSC Chain-of-Custody;
  FSC Licence Code FSC® C010438

#### Notes:

These property mean values and limits are the manufacturing standards applied by Whakatane Mill and relate to machine roll tests carried out according to Appita (NZS/AS 1301).

All paperboard exhibits loss in stiffness and plybond caused by routine physical actions in converting (i.e. decurling, wrapping cylinders or passing through nips during printing etc.).
